

--THIS PAGE IS NOT PART OF THE AGREEMENT--

#### A note on the xViz LLC DBA Lumel EULA

(a) We are neither an independent software provider nor an independent SaaS solution. We provide Power BI add-on software. So, a typical Masters Services Agreement (MSA) or a Cloud SAAS agreement is not applicable. We neither have these agreements nor can we sign your standard templates for the same reason.

(b) The products that come under the scope of this agreement (e.g., [EDITable](#), Writeback Matrix, InfoBridge, ValQ, Analytics+ uncertified edition) are NOT Microsoft [Power BI certified](#), as these products use Hyperscaler container services from Azure/AWS.

(c) You can consume hyperscaler container services in the following two ways:

(1) Use our **multi-tenant SaaS** service hosted on Azure. This service is hosted in Azure US and EU regions. You will need to choose one of these two regions during the initial workspace setup. Note that this setting cannot be altered in the future. Companies looking to comply with EU data residency norms are expected to choose EU.

(2) You can deploy and self-host the hyperscaler container services within your Azure/AWS **private tenant** inside your firewall and within your network. This option helps you comply with more stringent data residency, security, privacy, and governance requirements. The private tenant setup also allows you to scale up or scale down infrastructure when you need it. You can also upgrade our product(s) at your convenience so that it does not interfere with your budget/forecast cycles (subject to applicability of support to earlier product versions as outlined in clause 8.4).

(d) We have a separate [agreement](#) governing Microsoft-certified products (such as [Reporting Matrix](#), [Inforiver Analytics+ certified edition](#), [xViz Gantt certified edition](#), and [xViz Performance Flow](#)). Learn more about Microsoft's certification program here - [Get your Power BI visuals certified | Microsoft Learn](#).

(e) We heavily rely on Microsoft Power BI SDK and cannot guarantee SLA expectations as typically outlined on MSA. We also cannot guarantee resolution for issues and deployment processes with Microsoft Power BI which we might inherit from Microsoft.

(f) The products coming under scope of this agreement are NOT available in Microsoft AppSource marketplace.
